

ATTACHMENT A Remarks

Claims 1-15 correspond to the claims of the patent application, and, more specifically, claims 1 and 4 correspond to amended claims 1 and 4 presented in the Amendment filed on June 14, 2004, that was refused entry. The presented claims are patentable for the reasons set forth in that response. In addition, new independent claim 16 has been added which is patentable for similar reasons.

Favorable action is respectfully solicited.
